Furthermore modifying the system using seals such that each child ends up with Aptitude will ensure that children will surpass their elders. If the Avatar Pairs with a child of another couple. If male, Corrin is able to form a bond with the male character Niles, and if female, Corrin can get an S-Rank with the female character Rhajat. For example due to the ability have 4 seals, and extremely high levels trying to maximize character that's higher in a stat then abnormally possible. StrategyFor newer players, I recommend the Calm and Dull combo. Unlike Fire Emblem: Awakening, the boon is described with a trait rather than the actual stat for reasons unknown. They are as follows: Robust - Health Points: Increases your maximum health. But having higher speed on a knight or General may work for some, but not for others. master seal). This helps create more variety in strategies and ability options. Talent options are base classes from either Nohr or Hoshido. The only way to transfer over these Nohr classes to your other Hoshido characters is by using a heart, partner or friendship seal. Besides strength his stats are -1 and when paired his child will have a +1 modifier. Mozume may pair up with Xander or Niles. Slow - Speed: Decreases evasion, and double hit chance. It's worth noting that you do not need to marry off your character in Fire Emblem Fates, but doing so will potentially cut off many of the Paralogue Side Quests if the children are not conceived. Another difference is recruitment via Paralogue side quests. Parent Subaki Class Sky Knight Recruit Chapter Paralogue 13 Possible Mothers Corrin, Azura, Felicia, Mozu, Hinkoka, Sakura, Hana, Orochi, Rinkah, Kagero, Oboro, Setsuna, Selena, NyxReccomended Mothers: Hinoka - Allows Caeldori to improve with skills and class options, but her mother won't benefit from her father's support. Oboro - Can maximize her lance potential and reclass like Hinoka, with good skills but less growths than Hinoka. To make a marriage happen, you must simply pair up characters on the battlefield repeatedly to improve their relationship status. However, if this happens, the player will be unable to recruit the children that would have resulted from a regular S-Rank Support (Kana and Nina). Not all classes from the character list above will be available from the usage of a seal. Max stats can be calculated by achieving a spreadsheet. Especially when players are playing PVP, and one character has the same character with the same level, but a single higher stat makes a difference. Unlike previous games since Fates allows people to inherit skills by defeating players people are no longer locked in. Azura x Corrin has the highest stats depending on which bane is selected. Lucky - Luck: Increases hit rate, and evasion; reduces enemy critical hit rate. Parent Benny Class Knight Recruit Chapter Paralogue 17 Possible Mothers Corrin, Azura, Felicia, Mozu, Selena, Effie, Nyx, Peri, Charlotte, Beruka, Elise, Camilla, Oboro, RinkahReccomended Mothers: Peri - With Peri, you can give Ignatius some much needed resistance so he can tank efficiently on all fronts. Effie/Charlotte - Both mothers can increase his strength and defense to become an even better tank unit, though charlotte can increase his access to different skills and classes Parent Keaton Class Wolfskin Recruit Chapter Paralogue 18 Possible Mothers: Beruka, Elise, Camilla, Hana, RinkahReccomended Mothers: Beruka, Elise, Camilla, Hana, RinkahReccomended Mothers Corrin, Azura, Felicia, Mozu, Selena, Effie, Nyx, Peri, Charlotte, Beruka, Elise, Camilla, Hana, RinkahReccomended Mothers: Beruka, Elise, Camilla, Hana, RinkahReccomended Mothers Corrin, Azura, Felicia, Mozu, Selena, Effie, Nyx, Peri, Charlotte, Beruka, Elise, Camilla, Hana, RinkahReccomended Mothers: Beruka, Elise, Camilla, Hana, RinkahReccomended Mothers Corrin, Azura, Felicia, Mozu, Selena, Effie, Nyx, Peri, Charlotte, Beruka, Elise, Camilla, Hana, RinkahReccomended Mothers: Beruka, Elise, Beruka, Elise, RinkahReccomended Mothers: Beruka, RinkahReccomended Mothers: Beruka, RinkahReccomended Mothers: Beruka, RinkahReccomended RinkahReccomended RinkahReccomended RinkahReccomended Rink and coupled with their skills and her healing skill, she'll be a self-sustaining tank. Effie/Charlotte - Increases strength more than defense making her a more vulnerable but competent glass cannon. (Note In the shared campaign between these choices it's based on preference for Silas, Xander, Mozume, Hayato.) Charolette has weak resistance, but is flatlined across the board on stats but when paired with Xander. (Click image to see the full version of the tables below). Once the relationship status reaches "S" rank, the characters will marry, if able. The bane traits are as follows: Sickly - Health Points: Decreases your maximum health. It was no different in Fire Emblem Fates when I picked up my copy of Birthright. Excitable - Resistance: Increases the magic damage you take. This page outlines Marriage and Children in Fire Emblem: Fates, including who can marry who, and what skills children inherit. Parent Hayato Class Diviner Recruit Chapter Paralogue 14 Possible Mothers Corrin, Azura, Felicia, Mozu, Hinkoka, Sakura, Hana, Orochi, Rinkah, Kagero, Oboro, Setsuna, Effie, NyxReccomended Mothers: Felicia/Sakura - Both mothers will increase many of her stats like magic and speed, without any big downsides to her stat growths. In Fates however, the Paralogues are available as soon as a valid couple achieves an S-Rank Support with each other - regardless of how far a player is in the main story. This allows you to withstand magic damage easily (which is a big factor in this game), and lets you make the most of the Avatar's base class. A female Corrin in Revelation has the potential to create 4 powerful characters. Download the Max Stats ChartWhile this is a daunting task, Fates makes the importance of maximizing less important then other games in some ways. In essence, be sure your boon and bane mesh well with whoever you marry if you want Kana to be great at those stats too. It most likely isn't possible to branch out of the class you get from choosing Corrin's talent when starting the game unless you let Corrin marry one of the kids. Back when I played Fire Emblem Awakening, as soon as I discovered magic in the game, I wanted to be a dark mage. Parent Jakob Class Troubadour Recruit Chapter Paralogue 4 Possible Mothers Corrin, Azura, Felicia, Mozu, Hinoka, Sakura, Hana, Orochi, Rinkah, Kagero, Oboro, Setsuna, Camilla, Elise, Berkua, Effie, Nyx, Peri, Charlotte, Selena Reccomended Mothers: Azura - makes Dwyer even more powerful as a support unit, and gives him access to good Songstress skills to inheritHinoka/Camilla - turns him into more of a fighter, with higher skill to make use of better activation rateOrochi/Elise - good for becoming a spellcaster Parent Silas Class Cavalier Recruit Chapter Paralogue 5 Possible Mothers Corrin, Azura, Felicia, Mozu, Hinoka, Sakura, Hana, Orochi, Rinkah, Kagero, Oboro, Setsuna, Camilla, Elise, Berkua, Effie, Nyx, Peri, Charlotte, SelenaReccomended Mothers: Hana/Oboro - These mothers will give her access to more speed and classes that compliment her cavalier weapons - like lancefaire and swordfaire. Effie - Increases her strength and defense with the option to become a general for more defensive skill Parent Kaze Class Herb Merchant Recruit Chapter Paralogue 6 Possible Mothers Corrin, Azura, Felicia, Mozu, Hinoka, Sakura, Hana, Orochi, Rinkah, Kagero, Oboro, Setsuna, Camilla, Elise, Berkua, Effie, Nyx, Peri, Charlotte, SelenaReccomended Mothers: Setsuna - Gives her a valid option to become a sniper like her mother, making use of her base class bow-use. Mozu - Much like Setsuna, if reclassed to sniper, with the added benefit of increased growths for her already high skill. Azura - Also gives high skill and speed, and can boost her as a support unit. Ideally Parents in shared campaigns are the best choices for characters that are NOT shared in the base games. The only other way is to let Kana pass the class to others by A+ or S rank support. The best you might find playable are Diviners, Onmyoji and Basara if you want the physical attacks. Download the Full Version of the Marriage ChartThere is also a chart for the children characters, and which units they can achieve an S-Rank Support with, including cross-faction supports. How To Get Nohr Classes on Characters in Birthright You're pretty much limited to the Nohr classes from the list above and the class of the talent you chose for Corrin when starting your game. In fact because the stats are averaged the child may loose stats. The earliest this can happen is usually 6+ chapters in allowing for supports to build up. Hello everyone, RR-sama here! Fire Emblem: Fates is out now, and everyone's out to create their very first avatar. Note that both Corrin genders and their children Kana are excluding Kana - and Kana (Corrin's child) can achieve and S-Rank with any of the children of the opposite gender. Jakob -> Paladin / Great Knight / Strategist. While they aren't particularly important, they do affect small details in the game. As such, I also generally recommend avoiding the Sickly or Excitable traits if possible, only because Magic damage is a serious pain in Fates, and having low HP isn't exactly fun either. Note that 'Corrin can marry anyone on the chart and has been excluded. Strong - Strength: Increases your physical damage output. Since the child cannot promote on its own, it may acquire a Child Seal after maxing out at 20, allowing you to promote it to an upgraded class at a level higher than 1 (dependent on where the late game scaling would have placed their ability). To find out what one parent gives his or her child, just start at their primary class and alternate secondary class and move down in priority from their primary class to secondary class to their ability). into this class using a Heart Seal, provided that Nohr Noble is not their base class. The classes available are as follows: Archer Dragon (Wyvern Rider) Ninja Apothecary Mage Troubadour Cavalier Knight Fighter Mercenary Outlaw Samurai Oni Savage Lancer (Spear Fighter) Diviner Priestess Sky Knight (Pegasus Knight) StrategyOn a premeditated run, I would suggest picking a class that you want your spouse or child to have. In Fire Emblem Fates - the opposite is true: Each child (again excluding Corrin and Azura) is dependent on the father, while their hair color is dependent on the mother. Fragile - Defense: Increases the physical damage you take. Dull - Magic: Decreases your magic damage output. Parent Azura Class Sky Knight Recruit Chapter Paralogue 3 Possible Fathers Corrin, Jakob, Silas, Kaze, Ryoma, Hinata, Subaki, Takumi, Saizo, Hayato, Kaden, Azama, Xander, Leo, Odin, Arthur, Flannel, Benny, Laslow, NilesReccomended Fathers: Xander/Ryoma - Strengthens him as an offensive unit and can inhereit powerful skills.Jakob - Increases his ability to be a support unit, can reclass into a healer. Parent Leo Class Troubadour Recruit Chapter Paralogue 16 Possible Mothers Corrin, Azura, Felicia, Mozu, Selena, Effie, Nyx, Peri, Charlotte, Beruka, Hinoka, SakuraReccomended Mothers: Felicia/Nyx - Both mothers will give him increased magic and resistance if you want him to go down that route, and boost his support ability with offensive magic. In addition, a character's child from the list above also inherits a Nohr class by promotion from the use of a seal (eg. Take Leo and Nyx - they create a powerful mage that can have up to 4+ higher in stats for magic. Deft - Skill: Increases hit rate, critical hit rate, and the activation chance for some offensive skills. In addition, the character Fuga has been omitted as he can only be recruited in the Revelation DLC path, and can only marry Corrin (female). For example, if Arthur and Beruka married, Percy would be the resulting child with Beruka's hair color. This also affects your A+ support character as well, so be sure to take that into consideration if you want your units to have faction-exclusive units. Other Guides for more tips, tricks, and strategies, including: Other Guides: Something went wrong. In Awakening, these battles to recruit specific children would only appear during certain parts of the main story, and once the child's parents had gotten married in the playthrough. Partner Seal: Marry Character B by achieving S rank support. These Paralogues are no longer dependent on popping up in specific parts of a world map, meaning progression is no longer an issue. These are only reccomendations, so feel free to provide your own! Neutral Route Children Hoshido Children Nohr Children Nohr Children AnyReccomended Parents: Any There's no wrong way to raise your own kids, just be sure you keep in mind what your character's Boon and Bane are, as they affect the stat modifications that go into Kana. How To Get Nohr Classes on Kids in Birthright This is the tricky part. Parent Xander Class Cavalier Recruit Chapter Paralogue 15 Possible Mothers Corrin, Azura, Felicia, Mozu, Selena, Effie, Nyx, Peri, Charlotte, Beruka, Hinoka, SakuraReccomended Mothers: Charlotte - Far and away one of the best choices, as she passes down impressive strength, and is even a great pair up match for his father too. Felicia -> Hero / Bow Knight / Strategist. Boon affects which one of these pairs might seem not obvious either Effie is an example Some might prefer a higher defense on a knight. Bold Names indicate possible paternal character only available in the Revelation DLC path. Quick - Speed: Increases evasion, and double hit chance. BaneBane is the second stat-altering trait. Note: if she pairs up with Niles there will be a -1 modifier in resistance. Heart Seal: Gets the Nohr classes from the characters from the list above. Instead of tomes, they make use of scrolls to summon spirits to the battlefield. You can reclass your Corrin to the class you want to by selecting the appropriate talent. However, I realized that there isn't much coverage of the most important feature for the character customizer: Boon, Bane, and Talent.While these two options won't make the earlier parts of the game particularly hellish, it will affect how your Avatar performs in the late game. The only way to get a Nohr class in Birthright is through one of the following characters: Corrin - Any except for Nohr Noble and Songstress. Friendship Seal: Achieve A+ rank support with a character of the same gender (it's one way with each character). Clever - Magic: Increases your magic damage output. Silas is also a good pairing with Hinoka due to their positive stats. Since a Male character can only have two children in the case of being paired with Azura. I chose 'mage' because I thought I could be a dark mage with Corrin (I was disappointed later down but it didn't matter much because prince/noble is much better). After choosing your talent, all you need is a heart seal and you can reclass into a dark mage or a sorcerer (assuming you chose the same talent as I did when setting up Corrin). Below you will find a list of children characters, as well as their father and list of possible mothers. How To Get Nohr Classes on Corrin in Birthright When starting the game and making your Corrin character, you MUST choose the talent for the class you want. Unlucky - Luck: Decreases hit rate, and evasion; increases enemy critical hit rate. Elise also gives the strategist class to make her both offensive and defensive, while Nyx grants even more power. Unfortunately, Hoshido lacks magic classes. This list also includes general reccomendations for which parents can produce more powerful children than others. Download Full Version of the Children ChartThe main character Corrin is not only unique in being able to achieve an S-Rank Support with almost every member of the opposite gender, but Corrin can also achieve an S-Rank with a member of the same gender as well. After, use a partner seal on the character must have the Nohr class you want to get the class from (the other character must have the Nohr class you want to get the class Outlaw Recruit Chapter Paralogue 22 Possible Mothers Corrin, Azura, Felicia, Mozu, Selena, Effie, Nyx, Peri, Charlotte, Beruka, Elise, Camilla, Oboro, SetsunaReccomended Mothers: Nyx - An all around good choice that increases her magic user killer, and grants new mounted options that meshes well with bow knight. In Fire Emblem Awakening, when a couple got married, the resulting child was always dependent on the father. Parent Hinata Class Samurai Recruit Chapter Paralogue 11 Possible Mothers Corrin, Azura, Felicia, Mozu, Hinoka, Sakura, Hana, Orochi, Rinkah, Kagero, Oboro, Setsuna - Is able to pass down strength and defense and even cover his lack of speed. Hana - Increases his output as a competent samurai, even if he won't have many options Parent Azama Class Shrine Maiden Recruit Chapter Paralogue 12 Possible Mothers Corrin, Azura, Felicia, Mozu, Hinkoka, Sakura, Hana, Orochi, Rinkah, Kagero, Oboro, Setsuna, Effie, BerukaReccomended Mothers: Oboro, Setsuna, Effie, BerukaReccomende hit rate to balance. Clumsy - Skill: Decreases hit rate, critical rate, and the activation chance for some offensive skills. When I chose 'mage' as my talent for Corrin, it seems like Kana (Corrin's daughter) inherited it. Otherwise, the S-Rank Support functions exactly as normal. Shura -> Berserker / Hero / Bow Knight. Silas -> Mercenary. Niles has the edge on this one because Xander has more negative max stats meaning that the child of the resulting pair will have a -1 on some stats where Niles is more average. The child character and enemies will scale in level, however only the enemies will promote to higher classes - meaning the children characters can be in danger of being overwhelmed if attempted late in the game. Weak - Strength: Decreases your physical damage output. Since this can happen at any point in the game, the Paralogue will scale in difficulty not depending on the player's level, but of their overall completion rate. Additionally, Corrin and Azura can have two children which also passes on the traits to two children rather then one. After, use a friendship seal on the character you want to get the class from (the other character must have the Nohr class you want and A+ rank support). Bane, as the name suggests, affects which stat will have the lowest chance of gaining a point on level up, as well as which stat will be the lowest base stat. Parent Laslow Class Mercenary Recruit Chapter Paralogue 21 Possible Mothers Corrin, Azura, Felicia, Mozu, Selena, Effie, Nyx, Peri, Charlotte, Beruka, Elise, Camilla, Orochi, HanaReccomended Mothers: Selena - Grants her daughter improved stats to bulk up her competent skills as a fighter, even if less class options are available. Peri - Lets her go down the cavalier route, and also gives great growths and stats. Unlike Awakening where there were a female, and male build for the avatar, this game has additionally 3 story lines. Chart for Conquest (male and female) the route changes based upon Corrin's gender. Keep going down the list if: The class is something the child already has The class is a Songstress - which can't be passed downThe class has no alternate class. If you get to the bottom of the list without finding a suitable class to pass down any class. Some Preferred Banes for the avatar might be HP because it is an average -1 to all stats. Resistance and luck is a -3 to their respective skills. A few examples: Xander is the worst character to pair for the avatar if HP is selected as a bane. Also, any character who achieves an A+ or S Rank with the player can use a Friendship or Partner seal to change into this class. Examples: Note: You must use a heart seal to get the Nohr class for the character in the list above. Scarlet -> Great Knight / General / Bow Knight / Adventurer / Malig Knight. In Birthright Hayato is almost the equivalent of Niles. Both Azura and Corrin have two children only if paired with Azura. Corrin's child, Kana, will be the opposite gender of whatever gender Corrin is. All children are recruited unpromoted but scale in level based on game completionChildren characters can reach "S" ranks as well (marry each other), but cannot have children can inherit the "Royalty" status (ability to activate dragon veins) if at least one of the parents has royal blood. Below you can find a chart detailing which characters can achieve an S-Rank Support with each other, including cross-faction supports in the Revelation DLC path. I was then able to get A+ rank support with Kana using Mitama (her father parent is Azama) and it allowed me to use a friendship seal to get the dark mage / sorcerer class after I changed Kana's class to mage / sorcerer by using a heart seal. Parent Saizo Class Ninja Recruit Chapter Paralogue 9 Possible Mothers Corrin, Azura, Felicia, Mozu, Hinkoka, Sakura, Hana, Orochi, Rinkah, Kagero, Oboro, Setsuna, Beruka, CharlotteRecommended Mothers: Kagero - Makes him a more impressive ninja than he already is, even if his class options don't expand much.Orochi - Gives him more skill, as well as magic if you want to explore that opportunity. This page covers the three versions, Birthright, Conquest, and Revelation. Sturdy - Defense: Reduces the physical damage you take. For starters, the player can use a Heart Seal to change to one of these classes. Parent Kaden Class Fox Spirit Recruit Chapter Paralogue 10 Possible Mothers Corrin, Azura, Felicia, Mozu, Hinoka, Sakura, Hana, Orochi, Rinkah, Kagero, Oboro, Setsuna - Can increase her damage and skill output, as well as making her faster. Kagero - increases her damage output with the benefit of inheriting skill like Snake Venom that can further boost her damage potential. When certain units in the game achieve a maximum support rating with each other, they are able to join the player's army with skills inherited from both parents. Wait a moment and try again. Parent Ryoma Class Spear Fighter Recruit Chapter Paralogue 7 Possible Mothers: Corrin, Azura, Felicia, Mozu, Hana, Orochi, Rinkah, Kagero, Oboro, Setsuna, Camilla, EliseReccomended Mothers: Rinkah - Gives him access to great classes and skills, with the opportunity to inherit both swordmaster and chieftain skills. Kagero - increases his stats like strength even more to make him a powerhouse Parent Takumi Class Archer Recruit Chapter Paralogue 8 Possible Mothers: Azura, Felicia, Mozu, Hana, Orochi, Rinkah, Kagero, Oboro, Setsuna, Camilla, EliseReccomended Mothers: Azura - Can make him a great support unit with increased skill, and allows him to become a flier like the knishi knight to use his bow with more mobility. Oboro - greatly increases his speed and skill with good skills to inherit. As such, I've collected information on each one and compiled it into this short list so you don't have to!
